The new Laminex® White Series

Introducing the White Series by Laminex®, the most essential palette of white décors that includes three new releases. Finding just the right tone of white remains a challenge for many. The ideal shade of white has the power to radically transform a space. Our cooler whites bring an open, contemporary look to projects, while our warmer tones work beautifully within classic interior styles. From frosty, crisp shades like Polar White and Super White to creamy, vanilla tones like Parchment or new offerings like the smooth, tranquil Calm White, our refined series of 12 Whites lets you create the perfect atmosphere for your project.
