Navigating the range.

The Laminex® Colour Collection is a timeless range of laminates, categorised into four décor categories: **Whites & Neutrals**, **Woodgrains**, **Minerals** and **Accents** – globally inspired by the colours from nature for all Australians to enjoy.

Whites & Neutrals

Laminex Whites offers a range of base tones giving each shade its distinctive character. Often inspired by nature, neutrals offer raw, organic characteristics ranging from lighter tones to a selection of dark colours featuring deep, smokey greys through to intense charcoals and blacks.

Woodgrains

Laminex Woodgrain surfaces beautifully reflect the authentic textures and tones of solid timbers. In a market first, our Laminex TrueScale™ range allows large scale surfaces to be created without repeat. Select from cool and neutral grey tones, through to lighter warm and darker woodgrain surfaces.

Minerals

The Minerals range is inspired by the textural beauty of natural stone and concrete surfaces. In a market first, our Laminex TrueScale™ range allows large scale surfaces to be created without repeat. Marble décors offer timeless sophistication whilst our aggregates deliver a luxurious look of natural stone, quartz and terrazzo styles. Our concrete décors are raw and unrefined, bringing a sense of lasting durability.

Accents

The Laminex Accents range is an evolving palette of décors that reflect shifting design trends. Accent colours can help lift and add impact with soft and delicate pastels to brilliant bolds, or even create whole rooms of pop and vibrancy.

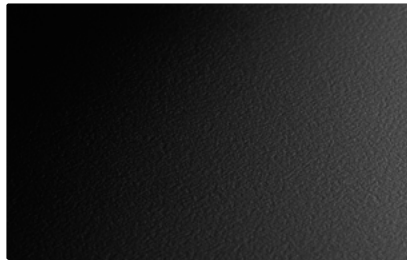

Laminex® Finishes.

Most Laminex® colours are available in a range of finishes for various applications. Here's a guide to each of the laminate finishes:
