Sustainability

As a proud Australian manufacturer, sustainable practices are an important part of our manufacturing capabilities. Through partnerships with government and industry we will continue to pursue and test new innovations in sustainable and environmental practices.

GreenTagCert™ Certification

Global GreenTag is a Product Sustainability Certification, Product Health & Environmental Product Declaration Program Operator relevant to all of the major green building rating tools in the world including;

- LEED® (167+ countries)
- International WELL™ Building Standard (60+ countries)
- Green Star® Australia, New Zealand and Africa (56+ countries)
- Green Globes® (21+ countries)
- BREEAM® & BREEAM® International (78+ countries)
- EarthCheck® (70+ countries)
- LOTUS
- Infrastructure Sustainability 'IS' Tool

Timber Certification

As one of Australia's largest manufacturers of wood products, Laminex supports responsible forest management and is committed to producing quality products from quality materials that are backed by globally recognised certifications. We source our raw materials from suppliers who have been independently verified as compliant to chain of custody standards, meaning that materials are produced using wood fibres sourced from certified sustainably managed forests to Responsible Wood/PEFC (Programme for the Endorsement of Forest Certification) Certifications.

Our manufacturing facilities hold their own PEFC certifications. This means all certified wood products from these facilities can be traced from plantation to final manufactured product.

Sustainable Manufacturing Initiatives

Laminex Australia also maintains ISO 14001 Environmental Management System certification for all manufacturing sites and is progressively embarking on a number of waste and emission reduction initiatives to reduce our overall environmental impact.

Find all of our documentation, certificates and reports at laminex.com.au/about-us/sustainability

Now more than ever, we understand the importance of maintaining hygiene in interior spaces we frequently touch such as countertops, tabletops and toilet and shower partitioning. Laminex has taken the lead with the introduction of Protec⁺, an antimicrobial surface technology that inhibits the growth of bacteria and fungus, that is now manufactured as standard into selected Laminex high-pressure laminate (HPL), including AbsoluteMatte HPL, as well as Laminex Multipurpose Compact Laminate.

Protec⁺ Fast Facts

Peace of mind

Laminex Protec⁺ antifungal and antibacterial properties do not wipe off or leach out of the surface. This gives you enhanced antimicrobial protection for the expected life of the surface.

Food Safe

Protec⁺ is certified as food safe, meaning it is safe for use in food preparation and processing activities and can be in direct contact with food, provided that good hygiene practices are followed.

Cleaner environments, everywhere

Laminex Protec⁺ can be used to create a safer, cleaner environment anywhere, including hospitals, schools, hotels, shops, cafes, sport facilities and public toilets.

Proven Effectiveness

Laminex Protec⁺ has been independently tested in accordance with a number of leading standards, including: ISO22196:2011, JIS Z2801 and ASTM G21, which measure antimicrobial activity and fungi resistance.

Large Format Commercial

Create inspired spaces with the Laminex Large Format Commercial Range. The Laminex Large Format Commercial range is Moisture Resistant E0 Particleboard (Vertiboard®), decorated both sides in a range of décors. It has been specially selected for today's Commercial and large scale projects. Vertiboard® is available in cost effective 3600mm x 1800mm panels, with thicknesses of 18mm, 25mm and 33mm in 4 different finishes. The range integrates with the Laminex Lamiwood® and Laminex Multipurpose Compact Laminate ranges.

Laminex Vertiboard is proudly made in Australia.

Decorwood®

The Laminex Decorwood range is standard E0 MDF, decorated both sides in a range of décors. Available in 2400mm x 1800mm panels in either 18mm or 25mm thicknesses, Decorwood is a cost-effective decorated MDF panel suitable for loose commercial furniture like lockers and desks, particularly where a shark-nose edge is required.

Laminex Decorwood® is proudly made in Australia.

Fireguard® Décor

Perfect for Ceiling and Wall Lining applications, this Group 2 fire rated Moisture Resistant, Medium Density Fibreboard is decorated on both sides with a hardwearing melamine surface. With excellent fire retardant and machining properties, Fireguard Décor is ideally suited for wall or ceiling applications. Offered in a practical Grey Core, in 16 popular décors, the Laminex Fireguard® Décor range will create a unique design feature in any Commercial space.

All décors are available in either a 2400 x 1200 x 12mm sheet for ceiling linings or a 3600 x 1200 x 18mm sheet for wall linings.

In addition to the stocked offer, the full range of Laminex Colour Palette colours can be supplied as Laminex Fireguard Décor in the sheet size/thickness options listed below. Lead Times and Minimum Quantities apply and are detailed below.

Laminex Fireguard Décor is a certified Group 2 material, in accordance with AS 5637.1. You must ensure your specific installation method, or alterations made to the panels, achieves the group rating required for your application.

Décor Feature | The Laminex Plywood Series

Laminex Plywood Décors have been painstakingly designed to deliver the authentic appeal of real plywood with the hard-wearing performance of Laminex.

Benefits of Laminex Décors Plywood Laminate over plywood

The laminex performance characteristics – durability, cleanability and ease of maintenance, stain resistance, UV resistance and colour stability – are the most obvious reasons for specifying Laminex Plywood Décors over real ply, but there are others. Installation is much simpler, for example, because the laminated panel is pre-finished, so there's no lacquering or staining; it just has to be cut to size and edged.

Laminex manufactures Plywood Laminate locally in Australia which creates a supply chain and cost advantage, compared to the imported plywood materials that can have logistic issues.

Multipurpose Compact Laminate

Laminex Multipurpose Compact Laminate is beautiful in appearance and highly resilient. It's extremely scratch, wear, stain, moisture and impact resistant, all backed by a 10 year limited warranty. This thick, versatile, self-supporting laminate panel is suitable for a variety of internal applications and is ideal for use in public and leisure spaces, such as public amenities/bathrooms, as well as furniture requiring design durability.

Laminex Multipurpose Compact Laminate is proudly made in Australia.

Laboratory Compact Laminate

Worktops are a critical element of laboratory furniture and the selection of material used is vital to the efficient and effective functioning of the laboratory environment. Laminex Laboratory Compact Laminate is the premium choice for vulnerable surfaces, with superior moisture, wear and chemical resistant properties. With machinability similar to that of hardwood, it's a versatile material that can easily incorporate sinks, drip-cups and tap-holes.

Laminex Laboratory Compact Laminate is proudly made in Australia.

Laminex Laboratory Compact Laminate features an Electron Beam Cured (EBC) surface for enhanced chemical resistance and hygienic properties.

We have tested 130+ chemicals, including Silver Nitrate, making this surface suitable for both horizontal and vertical applications in spaces that require the use of harsh chemicals or vigorous cleaning regimes.

It resists acids, alkalis, corrosive salts and other destructive or staining substances, and is graffiti resistant.

Alfresco Compact Laminate

Laminex Alfresco Compact Laminate will inspire you to spend more time outdoors. With outstanding resilience and sophisticated style, this durable compact laminate opens up even more outdoor design possibilities. Specifically created for exterior areas exposed to the elements, it's a revolution in outdoor living. Allowing seamless design integration between interior and exterior areas.

Laminex Alfresco Compact Laminate is proudly made in Australia.

Cut-to-size Compact Laminate

The Laminex cut-to-size offer is a hassle-free, ready-to-install compact laminate panel solution. This service easily allows fabricators to use compact laminate for a variety of internal and external applications, and is ideal for large or small projects, from restaurant tabletops to laboratory and alfresco benchtops, doors and loose commercial furniture.

There is no need for specialist cutting and lifting equipment, as the compact laminate panels are custom made – including the option of routing and predrilling for handles and hinges – to meet your design needs.

This offer is available in Multipurpose, Laboratory and Alfresco grades of Laminex Compact Laminate, which are all proudly made in Australia.

Waterloo™ Partitioning Systems

Laminex Waterloo Partitioning Systems will give you a quality complete fitout that will be admired for years to come. Laminex Waterloo is made from high quality Australian Made Laminex substrates, backed by 85 years of expertise for quality you can trust. Assembled locally in Australia using only Global GreenTag certified Laminex substrates, the Laminex Waterloo range includes Shower and Toilet Partitions, Locker Systems, Vanities, Seating, Privacy Panels and Wall Panels. These can be customised for applications ranging from offices, retail spaces, health care facilities, educational facilities, sports and recreation venues and everywhere in between.

Why use Laminex Waterloo Partitioning Systems?

National Coverage

- National distribution coverage
- Nationwide approved referral installation network
- National sales & after sales support

Superior Quality

- Made from quality Laminex substrates with Global GreenTag certification
- Quality and durable system designs including:
 - Reinforced aluminium head rails for system strength
 - Anodised aluminium hardware & stainless steel screws
 - Rounded panel/door edges for added safety measures
- In-house design & manufacturing with total control of the process from start to finish.

Antimicrobial Surface Technology

- Laminex Multipurpose Compact Laminate features Protec+ Antimicrobial Technology, which resists fungal and bacterial properties.

Proud Australian Manufacturer

- Assembled in regional Australia
- Made from Australian made substrates.

Superior Warranties & Guarantees

- Laminex Compact Laminate Warranty - 10 years
- Laminex Vertiboard® MR E0 Warranty - 7 years
- NEW Partitioning Door Hardware Replacement Guarantee* - 5 years

Chemical Resistant Laminate

Laminex Chemical Resistant high pressure laminate surfaces are designed to provide advanced protection against damaging chemicals in any number of harsh environments. Economical, durable, stylish and easy to maintain, the innovative laminate construction is intended for interior horizontal and vertical applications.

These surfaces feature improved chemical resistance to acids, alkalis, corrosive salt, and other destructive or staining substances. They're suitable for horizontal surfaces including counters, laboratory benches and tabletops. Ideal vertical surfaces include cabinets, casework fronts, wall splashback panels or screens.

Laminex Chemical Resistant Laminate is proudly made in Australia.

2400mm x 1200mm	0.8mm to 1.3mm	1.5kg/m ² approx (1mm)	Various

Note: Special fabrication requirements apply to Brushed Stainless Steel laminate. Not to be used in high humidity environments as corrosion of the metal foil may occur. Care should be taken with handling and fabrication as damage to the protective surface lacquer will lead to corrosion of the metal. Avoid metal to metal contact when using fittings; use a mastic or gasket to prevent metal to metal corrosion.

CustomArt™ Surfaces

Laminex CustomArt Surfaces help you build exciting, dynamic and ever inspirational interiors. Made locally in Australia, they are custom built to ensure you achieve your ideal vision. Perfect for just about any internal application, you can choose a design from our exclusive collection of colours, patterns, photographs or text, or create your own unique palette or print. Whatever you decide, the result will be outstanding. So for eye catching doors, walls, benchtops, ceilings and more, explore the stunning possibilities with Laminex CustomArt Surfaces.

Laminex CustomArt Surfaces offer a range of laminate grades. This means they can be used for internal application.

Aqua Panel

CustomArt Aqua Panels can be used as wall linings in wet or dry areas. It has a melamine resin surface on both sides for protection against moisture and warpage. It is highly resistant to scratching and staining, making it ideal for bathrooms, change rooms, toilets, showers, buses, caravans and boats.

Standard Laminate (Xtra Grade)

CustomArt Xtra Grade is a general purpose laminate for interior applications, including benchtops, tabletops, furniture, wall murals, interior signage and exhibition displays. Its hard surface finish provides added durability against scratching, wear and graffiti. CustomArt Xtra Grade requires bonding to a suitable substrate prior to installation.
