Laminex® Paper Finish

Laminex Paper finish is a textured, organic finish with the hand-made appearance of recycled paper, suitable for square-edged benchtops. This distinctive finish is the result of small-batch craft production using fragments of reclaimed paper. Paper finish products are made of 30% reclaimed material, using post-production, solid colour paper that would otherwise have gone to waste.

Available in two terrazzo-inspired décors, Paper finish products are a unique and environmentally-conscious choice.
