CARE AND MAINTENANCE

Cleaning

- A wipe over with a clean soft damp cloth should be sufficient to keep the decorative surface clean.
- Soiled surfaces or light stains are removed with warm soapy water or with common detergent such as Windex glass cleaner, Mr Muscle, Dissol, Nifty solvent or bathroom cleaner, Flash liquid, or Bathroom Plus, containing no abrasive or strongly acidic or alkaline ingredients.
- If wipe marks are noticeable on Laminex® Silk Finish™, it is generally due to greasy residue that has been moved around as a result of the cleaning process.

- To remove, methylated spirits may be used or Windex glass cleaner. It is recommended to do a final wash down with soapy water and dry clean cloth to remove any residue and restore the appearance.
- Alternative commercial cleaning products are available such as Quartet Board Gear. The Laminex Group does not supply these products. It is important that this product is not applied to the raw substrate, it is only to be used on the melamine decorative surface.

General

- Wipe off all food and drink spills immediately.
- Never use abrasive cleaners or powders, abrasive pads or steel wool.

- To avoid scratching or marking the gloss surface make sure the cleaning cloth does not contain any hard or foreign particles.

Laminex Silk Finish should not remain in contact with hypochlorite bleach, caustic solutions, hydrogen peroxide solution in any concentrations, mineral acid, sodium bisulphate, potassium permanganate in any concentrations, silver nitrate (1% concentration), berry juice, gentian violet in any concentration, mild silver protein, laundry blue dye or iodine solution.
